# FEATURES

- ◆ Heavy gauge pulley and pin system for smooth, easy opening and closing.
- ◆ Superior quality 3/4" square aluminum ribs for maximum resiliency without sacrificing design.
- ◆ The 1.5" diameter aluminum center pole has a 1/8" wall thickness, providing incredible strength and durability.
- ◆ Reinforced four-layer pockets prevent fabric from tearing.
- ◆ Modular construction allows for easy repair of individual components if necessary.
- ◆ Maintenance free stainless steel hardware.

The Greenwich Series aluminum market umbrella is constructed for commercial use, yet elegant enough to adorn your outdoor living space. Built using a 1.5" diameter aluminum center pole and 3/4" square aluminum ribs, with an entire frame and center post of 1/8" thick extruded aluminum, this umbrella is without a doubt the most durable on the market.

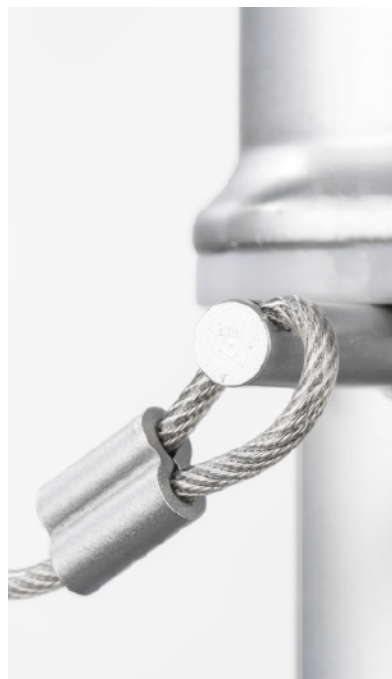

Manufactured using only top quality 9 oz. marine grade acrylic fabric that offers unmatched UV protection and longevity, the Greenwich is easy to clean and has a guarantee against fading. The pockets are reinforced with four layers of this robust awning grade fabric to prevent tearing. Other umbrellas are manufactured with lighter, 8 oz. furniture/cushion grade fabric (and pockets containing only one or two layers) that can sag or stretch over time.
