FEATURES

- ◆ Heavy gauge double pulley and pin system for smooth, easy opening and closing.
- ◆ Superior quality 1/2" x 1" extruded aluminum ribs provide just enough rigor without sacrificing the flex necessary to absorb all nature has to offer.
- ◆ The 2" diameter single piece aluminum center pole has a 1/8" wall thickness, providing incredible strength and durability.
- ◆ Canopy is securely attached to ribs with stainless steel grommets to prevent the fabric tearing from the frame.
- ◆ Modular construction allows for easy repair of individual components if necessary.
- ◆ Maintenance free stainless steel hardware.

Manufactured with beautiful 9 oz. marine grade acrylic fabric that offers unmatched UV protection and longevity, the Monaco is easy to clean, mold and mildew resistant, and has a guarantee against fading. Other umbrellas are manufactured with lighter, 8 oz. furniture/cushion grade fabric that can sag or stretch over time.

Stainless steel bolts and reinforced grommets secure the canopy and prevent fabric tearing. A commercial grade easy gliding double pulley and pin system (not push up), marine grade corrosion resistant aluminum frame with stainless steel hardware, and a modular construction add to the resilience of this already superior umbrella.
